Türkiye Denizleri Mikroplankton Türleri Kontrol Listesi

Bu bölümde yer alan genel liste basılmış olan makalelerden hazırlanmış olup, sürekli olarak güncellenmektedir. Dolayısı ile, bir bölgeden yapılan yeni kayıtlar eğer henüz basılmış bir makalede yer almıyorlarsa bu listede bulunmayabilirler. Ancak, yeni ve henüz basılmış bir makalede yer almayan türlerle ilgili kişiler içerik sayfasında yer alan denizlerimize ait aktüel listelerini inceleyerek bu anında kayıtları bulabilirler.

Mikroplankton sistematik ve taksonomi kuralları kendi karmaşık problerine sahiptir ve sık sık genus, klasis ve hatta filum düzeyinde yeniden düzenlenir. Burada sunulan deniz planktonunun algal grupları Christensen (1966) dan kısmen farklılaştırılmış sınıflama şemasını izlemektedir. Deniz protozooplanktonu için Trégouboff and Rose (1957) ve Lee ve ark. (1985) dan kısmen farklılaştırılmış sınıflama şeması izlenmiştir.
